2018 HISTORICAL CONVENTION

So far I have 4 shows confirmed for the 2018 Convention: Frank Brehm will be putting together a presentation on WP's first passenger train, the Tooele Valley Railroad Museum will be doing a presentation on the TVRR and its interchange with the WP, I will be doing a presentation on WP wooden combine / mixed train car 402, and Kerry Cochran is working on a presentation.

I have 2 more possible presenters that are considering shows. I also have requests out to the historical group located in the DRGW / WP Depot about a show and tours, and a request for presentation to Utah RR Museum. I would like to confirm at least 2-3 of those before sending out the registration forms, but I want to make sure those go out before Christmas.

I have some other people I have reached out to for presentations, but if anyone has any ideas for something they wish to present or someone who could present, please let me know. Ideally, I would like 12 presentations ready and have at least 2 be modeling related.

My hope is that someone will do a show on the Utah branchlines of the WP and I am trying to get someone to do a show on the WP-DRGW hand-off of the CZ and / or something on the Rio Grande Zephyr.
