

# **FRRS HO Model Railroad Donation.**

**While dining at Grizzly Grill in Graeagle in July following Caboose Train Ops, we (myself, Janet Steeper, Ken Finnegan, Kerry Cochran, Greg Elems, Eugene Vicknair, Bart Hansen and Eric McKay) were approached by a busboy asking if we knew anything about model trains. Everyone pointed at me. His father had 4 boxes of HO models that he wanted to just give away. I gave him my phone number. The following weekend, while in Sparks on personal stuff, the ffather contacted me.**

**His name is Jim Stockdale, as he works in Sparks and I was there, we arranged to meet at his workplace and I take possession of the collection. This went off without any issues. I did issue a donation acknowledgment form to Mr Stockdale. He donated the collection without any strings. I brought the boxes back to my home in Stockton for inventory. Inventory is below.**

**These are older Redbox Metal Athearn, Ulrich, Globe models. Some built, some unbuilt. There is not a lot of value to them given the age of these models vs what is available in the market today.**

**Recommendation is that these be taken to IRF (If board approves) and sold there.**

**Inventory is attached separately as formatting did not copy over.**

**Submitted**

**David Epling**
