

Assistant Roadmaster Report
May 2021 Board Meeting

Switched to doing fire prevention work due to communication problems with the prior project I was working on. Anyways, below is a photo essay of the completed tree removal work. I've gotten some work done this week that I don't have photos for, some limbing and a fair amount of log skidding. This is all out at the picnic grounds. Weeds are starting to sprout up so I'll be switching to that soon.
