

FEATHER RIVER RAIL SOCIETY

DATE: March 2022
ITEM: Funding Department Report
FROM: Eugene Vicknair

GRANTS

I completed two grant applications since last month.

- An application for \$3,000 from the Society for Industrial Archeology for survey and restoration work on the WP / PFE reefer car 55069.
- An application for \$300,000 from the California Museums Grant Fund for work on the roofs of WP 106 "Charles O, Sweetwood", WP 701 "Clover Plot" and UP 105.

A request had been made to add reconstruction of the Display Room to the CMG grant, but it needed to focus on a single project. I am pursuing other grant options for the Display Room.

YEAR END FUNDRAISER

Since January 1, the mail out fundraiser has brought in over \$4,000, well above the comparable time from last year.

DONATION LETTERS

All donation letters have been sent with a couple of isolated exceptions that need special handling. I am working on those.
