Re: 2023 Convention Committee Report
Date: May 9, 2023

The 2023 Joint NMRA/PCR/FRRS Convention is now in the history books. I hope that all the members that were able to attend had a great time.

The convention started out on Wednesday April 26th with an evening reception and by early morning Thursday April 27th there was a busy schedule to get all the events set up and ready to start the opening clinics and presentations by 8:30 a.m.

Several of the convention committee members were busy getting all the rooms and services ready to open the doors. Eugene Vicknair and Janet Steeper worked on getting the WPRM museum store ready and several of our other members were working to get everything ready.

The PCR members were busy getting the contest room setup and ready for all the models, photos and displays.

The convention continued from Thursday to Sunday. There were several very good clinics and presentations by our members, our friends and members of the PCR.

The schedule of events from the convention along with photos and other information can be viewed on the FRRS website at:

https://wplives.org/wphistory_conventions.html

Then go to the 2023 Convention.

We have posted several photos of the event.

I would like to take the time to thank the following people for helping make this another great convention.

Chris Skow
Dave Stanley
Eugene Vicknair
Greg Elems
Ken Rattenne
Kyle Wyatt

Mike Coen
Shane Starr
Steve Cope
Janet Steeper

Sorry if I missed someone in our group that helped out and made this another great convention.

And of course the PCR Staff and all the other people that helped out.

Should you have any questions, please contact Eugene Vicknair or Kerry Cochran. You can always send a message via the convention team's email address: convention@wplives.org
