

FEATHER RIVER RAIL SOCIETY

DATE: July 2023
ITEM: Museum Store
FROM: Eugene Vicknair

HVAC

After being installed by Eric McKay and myself, with some assistance from Don Nelson, the last item remaining was charging the lines with coolant and activating the system. Ed Powell was able to come to the museum a couple weeks ago and get that accomplished. The HVAC system should now be fully operational.

NEW PRODUCTS

We have received several new mug designs that are exclusive to the WP Store. Also, we are ordering another new custom pin from Sundance Marketing. This one will depict the WP logo with the passenger "wings" as seen on the front of the 801 series F-units.

2024 PHOTO CALENDAR

I have begun selecting photos for the 2024 Photo Calendar. Hoping to get the calendar laid out by end of August.

POS and ON-LINE STORE REPORTING and ACCOUNTING

Working with Ann Carey and Paul Finnegan on various improvements and fixes to the accounting and reporting of the store, as well as adding missing photos and descriptions of products. Kerry Cochran is also assisting by taking photos of products we need to post.
