

You can operate your own railroad motorcar!

Are you a railfan? Interested in seeing the country from a different perspective?

Come join West Coast Railroaders Group's motorcar excursions!

Each motorcar excursion offers unique opportunities to travel the west by rail, with no two excursions being alike. Are you a steam train buff? Follow century old steam engines in a wild west setting. Diesel trains more of your style? Operate alongside modern diesel locomotives. Is railroad preservation your passion? Visit museums with your motorcar.

You can do all this and more over many railroads, all while you are safety guided by trained professional railroaders that assist you throughout the journey.

Don't own or know how to operate a railroad motorcar?

WCRG's professional railroad personnel can assist you in everything you need to start enjoying excursions, from selecting the right motorcar for you, to setting it up for excursions, as well learning how to safely operate your motorcar on WCRG excursions. Feel free to contact us at the email address below.
